

The Holbrook Boat Shop was constructed ca. 1895 by Coupeville boat builder, Horace Holbrook, to serve as a boat building workshop behind his house on Grace Street in downtown Coupeville. In 2011, the building was gifted to the Town of Coupeville and moved to the Town Commons near where the Farmer's Market is held. Planning to attend the Coupeville Farmer's Market? Checkout the Holbrook Boat Shop!

The Holbrook Boat Shop

As part of the Ebey's Forever Grant Program, the Holbrook Boat Shop will get a new cedar shingle roof, door repair, and a structural stabilization. The Town of Coupeville will be working with the Whidbey Partners in Preservation and the Lion's Club to assist with the work.
